

## ENVIRONMENTAL POLICY

Reference Number: **SHE 4.4.2**

Revision Number: 00

Date Revised: FEB 2019

### Environmental Policy

Art Welding has committed itself to an environmental policy where it will:

- Develop Environmental Management System (EMS) based on ISO 14001, through a culture of environmental awareness and training.
- Comply with the Environmental Management Plan (EMP) of its customers/clients and all relevant environmental legislation.
- Endeavour to influence sub-contractors and suppliers to be environmentally responsible.
- Take into consideration the environmental concerns of both the customer/client and interested parties and to communicate the policy to all personnel within **Art Welding**
- Monitor and modify environmental management through review and audit of environmental performance to ensure a responsible development.
